

std::false_type

```
classDiagram
    class std_false_type["std::false_type"]
    class playrho_lsMatrix["playrho::lsMatrix< typename >"]
    playrho_lsMatrix --|> std_false_type
```

The diagram illustrates an inheritance relationship. A light gray box at the top represents the base class 'std::false_type', which is divided into three horizontal sections. Below it is a darker gray box representing the derived class 'playrho::lsMatrix< typename >', also divided into three horizontal sections. A blue arrow points from the top of the derived class box to the bottom of the base class box, indicating that 'playrho::lsMatrix' inherits from 'std::false_type'.

playrho::lsMatrix<
typename >
