

std::true_type

```
graph BT; A["playrho::IsSquareMatrix< Vector< Vector< T, M >, M > >"] --> B["std::true_type"]
```

The diagram illustrates an inheritance relationship. At the bottom is a dark gray box representing the base class `playrho::IsSquareMatrix` with a complex template signature. A blue arrow points upwards from the top edge of this box to the bottom edge of a white box above it. The white box represents the derived class `std::true_type` and is divided into three horizontal sections, with the top section containing the text `std::true_type`.

playrho::IsSquareMatrix
< Vector< Vector< T, M
>, M > >
